[Collapse Responses](#)

- ▶ Thank you - I enjoyed the class!
- ▶ Learned about new technology to integrate into class.
- ▶ Thank you for making my first online course successful, engaging, and educational. This course has been stimulating and fun.
- ▶ I did not just check one column without reading. I read every question and strongly agreed with all of them.  
I think it is good to give more than enough resource material, yet not require it all to be read. William did a great job! But for some reason I didn't like all the chatty people posting, some posted to almost every comment and made it impossible to read everyone's post, just venting here I don't know how a teacher could tactfully say, "Let's try to narrow down your excessive discussion posts."
- ▶ I appreciate how the instructor structured the course with choices. Depending on how knowledgeable the student was in a specific application, there was always something else interesting to get their feet wet with.
- ▶ More thorough and prompt feedback would have been helpful.  
The information was interesting and the projects were inciteful. I was unclear about what was required or when I thought I knew I was disappointed when the grade came in two weeks later saying that no it wasn't he was looking for. That was tough. I can't expect my students to ever learn if I don't offer immediate support and guidance.
